

925 Sterling Silver Tea Canister

1 290 EUR

Period : 20th century

Condition : Bon état

Material : Sterling silver

Description

Rare tea box (or lidded box) made of 925 sterling silver. Shaped like a pinecone. The interior is also made of silver-plated metal, characteristic of silverware intended for food use. The relief-carved decoration, consisting of twisted ribs, is typical of Italian design from the 1960s and 1970s and evokes the work of designers such as Mauro Manetti, though attribution cannot be confirmed, as the hallmark is different. Height: 12 cm Diameter: 10 cm Weight: 342 grams The lid fits perfectly thanks to a notch and is also ribbed on the inside, bearing the hallmark of the silversmith's quality and craftsmanship. A rare, high-quality piece. In very fine condition, marked "Sterling" on the inside with a silversmith's hallmark and also marked "Sterling" on the base.
