Description

A beautiful, cylindrical-shaped cup with a bulbous body. Made of copper with a dark patina, it is delicately adorned with silver inlays, creating a stunning contrast. At the bottom is a rosette, and around the rim are various stylized medallions featuring animal motifs or inscriptions. The border is decorated with geometric patterns. Two microscopic holes, one of which was restored in the past but is still visible; some wear on the dark patina and traces of oxidation. Please look closely at my detailed photos--I'm not hiding anything! Iranian working dating from the 19th century or earlier. Dimensions: 20 cm diameter x 9.5 cm height.
