Description

A very pretty earthenware bowl known as "Jersey ware." Produced at the Staffordshire Pottery in Staffordshire County during the 19th century: from 1805 to 1875. Known as Jersey ware. This is because these pieces were imported from the island of Jersey, England. Here is a beautiful example of this lovely gold-and-blue earthenware, featuring a floral design around the entire rim of the bowl! Dimensions: 7 cm high, 12 cm in diameter at the rim, and 6.5 cm at the base. In very good condition! Visually stunning and of very high quality!
