DescriptionAn elegant decorative column crafted from breccia marble, adorned with a gilded bronze frame and topped by a remarkable twelve-pointed star-shaped sphere. This composition reflects the neoclassical style of the second half of the 19th century, inspired by Empire-style designs. The quality of the marble, with its shades of cream, red, and gray, contrasts harmoniously with the warm patina of the gilded bronze. The star-studded sphere is a particularly original element and lends the piece an architectural and symbolic character. This type of object was intended to adorn a fireplace, a bookcase, or a cabinet of curiosities.
