Description

A significant "American-style" walnut roll-top desk by "Pichon" in Lyon. The large roll-top and the two smaller ones on the inside are in perfect working order. The drawers slide smoothly and lock when the large roll-top is closed. It is mounted on casters in very good condition. A few small parts need to be reattached or glued back in place (shelves, pen holder, dividers between the small shelves, etc.). The lock is missing. Early 20th century.
