## Description

Beautiful Art Deco jade glass vase by Charles Schneider.A truly stunning example from the Art Deco period, featuring those lovely colors that only Schneider could master. A very elegant vase with its spherical shape resting on a highly graphic pedestal. Note especially the lovely colors with the orange and yellow speckles on the upper part, which could be reminiscent of the artist's "marbrines" series--an imitation of the "pièce dure" technique. The base is a lovely raspberry color.In perfect condition, 25 cm tall, 18 cm wide, with the usual signature on the base; well-documented, circa 1922-1924.A beautiful Art Deco vase, original in both form and color.
