Description

Oval-shaped box made of non-European silver--probably from the Levant, Late 19th to early 20th centuryDifficult to place geographically, though I acquired this box in the same lot as two other silver objects from the Levant (the kohl case and the Palestinian fish pendant, both available in my shop).It is therefore possible that this box comes from the same region. Weight: 132 g11 cm x 8 cmHeight: 6 cm
