Diameter : 33 cm

Height : 4 cm

Description

A beautiful decorative Limoges porcelain dish, entirely hand-painted. The design is very original and is divided into two parts: The lower section depicts an architectural landscape shrouded in mist. The upper section features a splendid floral design. The entire piece is delicately painted. The rim has a curved shape and is embellished with an old-gold gradient border. This platter comes from the Bernardaud factory in Limoges. It bears the decorator's signature: "Marc" (in the center of the platter, on the right). On the reverse side of the platter, two holes have been drilled near the top to facilitate hanging. At each of the four corners of our platter, a flower is embossed in the porcelain clay, creating a beautiful effect. Please contact us for shipping costs.
