

Regency-era Coffee Table

1 380 EUR

Period : 19th century

Condition : Restauré par notre atelier

Material : Walnut

Length : 99 cm

Height : 72 cm

Depth : 66 cm

Description

The quality of the sheep bone base, also known as the "S-shape," is characteristic of the Regency period. It features molding on the lower section and a volute, all with an extraordinary curve. The base appears to be juxtaposed. The scalloped band on the front is bold and pronounced. The entire is also original. This same curvature is evident in the meticulous craftsmanship. The X-shaped crossbar is stepped with flat molding, also typical of the period. The leg is extraordinary! The central spindle further highlights the finesse of the work. Unfortunately, this spindle, as well as the top--also made of walnut--are not period pieces. Despite this, it is well-balanced and cohesive. This model remains rare. Given its condition, it deserves a home that suits it. Delivery available but not included in the price.
