Description

A beautiful pair of St. Louis needle holders or decanters in perfect condition. Authentic, as they appear in the 1908 St. Louis catalog under reference number 743. They are made of frosted crystal, accented with fine gold gilding, and were produced in the early 1900s. These carafes do not bear the St. Louis signature because the crystal manufacturer began applying its acid-etched hallmark in 1936. With their stoppers, they measure 30 cm; without them, 23 cm. The base has a diameter of 7 cm. Shipping available in France and throughout Europe.
