Diameter : 1,5 centimètre pour le bouchon

Description

A Bakelite fountain pen...With the nib, clip, and three gold-plated lines...From the PARKER brand--U.S.A....From the 1930s...A fairly large model compared to classic pens...And with a nib that's also larger...In good condition...It was probably filled with ink from the top...I took a photo with the cap unscrewed...The cap screws on to close the pen...!Weight... 20.7 grams
