Description

A portrait of Emperor Napoleon Bonaparte in uniform, a gouache on ivory depicting him toward the end of his reign in the early 19th century, looking more stooped and weathered than in his earlier portraits. Its stained wooden frame holds the oval portrait beneath its period-style convex glass, and is edged with a gilded molding featuring decorative motifs. The frame shows signs of old wormholes, which pose no risk. Shipping available within France and internationally; please contact me for details
