Description

A Depiction of Christ, freely inspired by Rubens' painting, a panel shaped like a tabernacle door or a small liturgical panel: arched top, narrow vertical format, highly detailed religious relief. Iconography inspired by Rubens's: Christ being lowered by several figures, ladders, cross diagonally across the composition, a group of women at bottom, and heavenly figures on top. The highlight of this work is the quality of its composition and relief, please, see our pictures...Sand-cast bronze, of fine quality; details are so clearly visible that one can make out the small traces of various molds fitted together to create the composition. 29 cm x 16 cm, weight approximately 1.5 kg. This work, which is unchiseled, is highly artisanal; the casting is likely from 18th or 19th century; I have not found
