

## Decorative Bowl Made Of Gilded Bronze And Cut Crystal, 19th Century

450 EUR

Period : 19th century

Condition : Très bon état

### Description

An elegant centerpiece from the late 19th century, this cut crystal bowl combines a richly crafted gilded bronze base with a finely cut crystal bowl. It reflects the refined decorative taste of the late 19th century, a period when finely cut crystal was frequently paired with ornate gilt-bronze mounts to create sophisticated objects for dining rooms, living rooms, and prestigious interiors. The cut crystal bowl features a brilliant faceted surface designed to capture and refract light, while the gilded bronze structure provides an elegant architectural setting and a warm contrast to the crystal's transparency. The combination of these two materials lends this centerpiece a particularly refined and luxurious appearance. Originally designed as a centerpiece or decorative bowl, it could be used to display
