Description

An elegant antique oil painting on canvas, signed and dated 1877 in the lower left corner. It depicts a romantic lakeside landscape brought to life by small figures on the lakeshore. The work is characterized by a refined lyrical sensibility, dominated by the warm golden tones of sunset and a large tree in the foreground that serves as a natural backdrop to the composition. The painting is beautifully complemented by its period gilded wooden frame, richly carved with plant motifs. The style, the treatment of the diffused atmospheric light, and the rendering of the vegetation firmly place this work within the tradition of European landscape painting of the second half of the 19th century. In particular, the composition is strongly influenced by the French School of that period. Condition as shown in the
