3 800 EUR

Period : 19th century

Condition : Restauré par notre atelier

Material : Oak

Length : 195

Width : 78

Height : 77

Description

This beautiful farmhouse table, crafted from ash and oak and featuring two seamlessly integrated side drawers, exudes a warm and authentic presence that naturally commands attention in any space. It seats up to 8 guests. The tabletop features the rich grain and deep blond hues characteristic of ash, while the visible knots add a touch of artisanal authenticity. The drawers--discreet yet spacious--glide smoothly to the side, highlighting the quality of the craftsmanship. The faceted straight legs, securely connected by a low crossbar--also known as a "cat bar"--give the piece a sturdy and balanced appearance, as if the table were designed to last for generations.*****Period: Second half of the 19th centuryIn fine condition following restoration in our cabinetmaking workshopFinish:
