

An Important Pair Of Louis XVI-style Hallway Wall Sconces Made Of Bronze And Cast Glass

6 500 EUR

Period : 20th century

Condition : Etat d'usage

Material : Bronze

Height : 55cm

Depth : 30cm

Description

I am offering this impressive pair of French castle entryway sconces. The frame is made of black-patinated bronze, to which are attached cast-glass globes topped with chiseled bronze caps. Each sconce has a single light source, and the electrical system is in working order. The set is in good condition; the bronze frames can be re-gilded if desired. Please note a small chip on the edge of one collar; this flaw is invisible when the top cap is in place. Total height: 55 cm Maximum depth: 30 cm Height / width of the oval wall plate: 34.5 cm x 26 cm Please contact me for shipping within France and worldwide
