Description

Galerie Georgette Décoration is pleased to offer a beautiful 1900s bookcase made of natural wood. This bookcase has been restored by our workshop. It stands 270 cm tall, giving it a very elegant appearance. The wood has a honey-colored patina. The bookcase features two large antique glass doors with rounded corners, as well as two small doors at the bottom of the piece, decorated with a floral painting. The back of the bookcase is painted mauve. Two shelves are supported by brackets; a third is currently being made. Both understated and elegant, this bookcase will complement any type of interior, whether contemporary or more classic. Come see it in our store in Toucy, 89130.
