

Reichs Grain Tester In A Case, Precision Measuring Instrument

450 EUR

Period : 20th century

Condition : Bon état

Description

REICHS-GETREIDEPROBER IN A CASE,
PRECISION MEASURING
INSTRUMENT Germany, early 20th
century Brass, wood, iron Case: 31 x 18 x
11.5 Case containing a measuring cylinder, a flow
regulator, a scraper knife, a precision scale, and a
box with weights. It bears serial number 42281
along with stamps from the metrology
services. The set is in very good condition. One
weight is missing from the box, and the case
handle is missing. This instrument was used to
determine the density (weight per hectoliter) and
quality of grain. Ref.: 7317 Text and photos ©
