

Cigar Holder, Butcher's Pyrogen--bronze

490 EUR

Period : 19th century

Condition : Très bon état

Material : Bronze

Width : 11,8

Height : 13,5

Depth : 7,2

Description

A rare and curious cigar holder that also serves as a cigar lighter. The piece is mounted on a rectangular black marble base. The cauldron is divided into compartments to hold 7 cigars, while the figure, a butcher, has a hinged cap that tilts open to allow a few drops of alcohol to be poured in; these seep to the wick inside the cigar he is smoking, which is then lit to produce a steady flame. This object features an unusual mechanism, a comical character, and exceptionally fine cast iron work and chiseling, finished with a gold-medal patina. Height: 13.5 cm Width: 11.8 cm Depth: 7.2 cm
