Description

A beautiful tea and coffee set by the renowned Ravinet d'Enfert company, crafted from silver-plated metal and rosewood. Typical of the Art Deco period, this exquisite set consists of the classic combination of two teapots, a milk pitcher, and a sugar bowl. The handles and knobs are made of rosewood. High quality, featuring the striations at the corners and the very geometric appearance characteristic of the period. In excellent condition, no dents. Each piece is signed on the base; note that the tray is signed "Ercuis" and numbered. Tray dimensions: 54.5 cm by 35 cm (other dimensions available upon request). Looks stunning on a beautiful piece of furniture--a truly exquisite set. N.B.: The Ravinet d'Enfert company was founded in 1882 by Louis Ravinet (1854-1925) and Charles d'Enfert
