Description

A beautiful collection compiled into an atlas, in a period half-leather binding, featuring superb watercolor-enhanced maps of France and the entire world; this magnificent work by Mr. Bonne, Hydrographic Engineer of the Navy. A delight to behold: these "60" lovely, hand-retouched maps, well-preserved and dating from 1780 to 1790. Notably, we see the creation of departments in the aftermath of the Revolution. A piece worthy of a cabinet of curiosities--that of a lover of discovery and travel...
