Period : 19th century

Condition : En l'etat

Material : Wrought iron

Length : entre 38 et 40 cm

Height : entre 40 et 42 cm

Depth : épaisseur des barres 0,6 cm

Description

A wrought-iron, riveted grille designed to be mounted on a door, window, or shutter. It was intended to hold firmly in place by inserting the ends of two bars through a door, for example, and bending them back to prevent them from being torn off. The ends on the other two sides were flattened and re-drilled to accommodate screws or nails.
