Depth : 12

Description

The Anthropomorphic Cabinet is a bronze sculpture inspired by Salvador Dalí, depicting a stylized human body transformed into a chest of drawers. Each drawer, positioned on the torso, chest, and thighs, symbolizes the different layers of the subconscious and buried memories, reflecting Dalí's interest in psychology and the influence of Freudian psychoanalysis. The sculpture combines smooth and textured surfaces to create a visual contrast evoking the balance between order and chaos, the conscious and the unconscious. H: 19 cm L: 31.5 cm D: 12, Please contact us before ordering to confirm product availability.
