### Description

Lamp base, made of brown stoneware with orange undertones, circa 1960-70. In perfect condition. Can be easily electrified, as there is a hole provided for this purpose at the base. Its shape is very pleasing: slender thanks to its long neck and well-balanced due to its flared base. This piece fits perfectly with the spirit of the times and will easily find its place in any interior. As I am not a specialist, I will not risk making a precise attribution and will deliberately remain vague--my clients often know more than I do. Free shipping to mainland France. Please contact me by email if possible. I'm happy to provide further information.
