Material : Other

Length : 19 cms le plus grand, 16,5 cms le plus petit

Width : 4,3 cms, et 4 cms

Description

A rare deer antler ornament depicting a stylized couple--a man and a smaller woman. Connected by a leather cord. This ornament was worn around the neck, with the two figures resting on either side of the shoulders. A symbol of fertility? Very beautiful carvings, in perfect condition, highly evocative, with a very contemporary design. Superb patina. Late 19th or early 20th century. Togo.
