

Carved Stone Element From The 16th Or 17th Century

230 EUR

Period : 17th century

Condition : En l'etat

Material : Stone

Diameter : bas 9 cm milieu 19 cm haut 7 cm

Height : 22 cm

Description

An ancient architectural element carved from stone. This object has a circular base with a hole drilled through it to accommodate a metal rod, ensuring its stability. This stone, carved in high relief, features a design of five fruits--presumably pomegranates--topped by a knot. An octagonal element sits atop the knot. This limestone piece may have been part of a pinnacle or a column. Weight: 3.5 kg
