Description

Late 18th-century surgical amputation saw -
Signed PRADIER À PARIS Category:
Collectibles / Scientific Instruments / Display
PiecesPeriod: Late 18th century (Louis XVI /
Revolution period)Condition: In excellent
condition, superb original patina. Description An
exceptional and rare amputation saw (or arched
bone saw) made of polished steel and an ebony
handle, a precious testament to the high art of
Parisian medical cutlery from the late 18th
century. The instrument features a remarkable
arched frame with an elegantly curved and
molded profile, characteristic of the aesthetic care
taken with surgical instruments of this era. The
ergonomic handle, crafted from solid ebony,
provides the practitioner with a firm and elegant
grip. The original serrated steel blade is held taut
