### Description

A finely woven silver-plated metal basket holds the bottle at a slight angle for pouring at the table while ensuring the label remains visible. Made of fine, tightly woven, and very rigid silver-plated metal wire, this oval-shaped bottle holder rests on a pedestal base; the triple-twisted handle allows for an easy grip, and a removable cord prevents the bottle from slipping. Rare for the fineness of its weaving. Probably made by a leading French silversmithing house (Boulenger, Christofle...?) or an English one. Early 20th century. Very good condition. Length 29 cm - width 12 cm - height 20 cm.
