Description

A footed bowl...Made of an alloy of lead, tin, and antimony...Entirely silver-plated...And a hand-blown crystal...Of the same quality as SÈVRES...Removable, of course...Signed with a small plaque on the bottom...By R. BROADHEAL...Was he an English silversmith working in FRANCE...?I don't know...In good silver-plated condition...Just two small cracks on the upper frieze...Not too serious, in my opinion...From the late 19th century...Weight... 696 gr
