Description

A beautiful and original large stemmed bowl with roses by Daum. In the purest Art Deco style, this beautiful large stemmed bowl features a wide frieze of roses and foliage, entirely etched on a marbled background. This original, highly geometric shape--so characteristic of the 1920s--creates a beautiful play of light. Note also the lovely bluish-gray color. In perfect condition, 30 cm in diameter and 14 cm in height, signed on the base "Daum," "Lorraine Cross," "Nancy, France"; a well-documented model, circa 1925-1930. A very pretty, ultra-modern centerpiece that complements both modern and traditional interiors.
