Description

Grand Tour 19th century: "Grand Vase Warwick": chiseled bronze, 24 × 27.5 × 34 cm. Named after one of its first owners, this is an enormous marble vase found in the ruins of Hadrian's Villa in Tivoli. Its Dionysian decoration has been reinterpreted many times, with variations in height, taller, the number of heads, etc. Our specimen, remarkable for its size and the quality of its deep chiseling, is one of these versions, featuring eight heads in relief on the body and a decoration of grapevines. Please feel free to ask us for photos or additional information via email or phone. More photos and many other items are available at our store in Pau and on our Proantic website.
