Louis XVI-style Floor Lamp - Two Lights - Circa 1950

250 EUR

Period : 20th century

Condition : En l'etat

Description

An elegant floor lamp from the second half of the 20th century, circa 1940-1960, crafted from black metal and gilded brass. Its long black shaft rests on a brass tripod base, while the upper section features two lamp arms shaped like small candelabras, adorned with delicate scrollwork. The piece is characterized by a neoclassical style inspired by the Louis XVI style, with a simple and elegant silhouette. The floor lamp retains its black lampshade with a light-colored interior. The shade has a slight warp, caused by accidental exposure to moisture, but can of course be replaced according to the buyer's preferences. The brass parts would benefit from a thorough cleaning to restore their luster; however, their current patina remains appealing. Functional lighting: both lights turn on properly, and the foot
