Description

Pair of Corinthian capitals from an ancient theater. Very decorative for interior design, they can also be used as display stands or pedestals in a store. Dimensions: 78 cm high 84 cm at the widest point 40 cm at the deepest point When the capitals are placed together, the circular base has a diameter of approximately 54 cm (55 x 53) Resin castings on a wooden frame. Wooden panels on top and bottom. Capitals with multiple layers of paint, giving them a gilded wood appearance (see the photo for a comparison with a fragment of 18th-century gilded wood). Since color rendering may vary from one device to another, the shade of the patina may differ between what is seen on screen and in person, and may also vary depending on indoor lighting conditions. Some minor lacks and scratches
