Description

Oil on canvas. A grand architectural fantasy featuring the remains of a section of a classical temple colonnade rising up in front of the crumbling ruins of a city wall--itself in ruins--with two arched gates; various commoners pass along the path, tiny and insignificant figures beneath the grandeur of the ancient ruins. In the background, a hilly landscape reminiscent of central Italy, in chromatic harmony with the sky above. The painting has previously undergone restoration and relining. It is presented in an antique frame that has been refinished and regilded. ARARPI0313799
