Description

Description: Chiseled bronze, with original ground gold. These long Louis XVI-era trim pieces feature a post frieze design. They can easily be used to adorn a piece of furniture or woodwork, as they are complete (rounded at each end), and since the frieze consists of two symmetrical sections, they can be installed without needing to be cut to size. We have acquired a large collection of beautifully crafted antique bronze elements from furniture, light fixtures, etc. Since our workshop specializes in gold leaf gilding, all these trim pieces will be in perfect condition--either retaining their original gilding or having it redone now at a reasonable cost. Since we cannot list everything online, please call us to find out if we have one or more pieces that suit your needs. Condition: Excellent
