

China. Large 19th-century "bitong" Porcelain Brush Washer

650 EUR

Period : 19th century

Condition : Très bon état

Material : Porcelain

Diameter : 21,5 cm

Height : 18 cm

Description

Today I'd like to present this significant and very beautiful Chinese brush washer. It is also called a "bitong." This bitong is a scholar's object and is typically placed on a desk or table for calligraphy or painting. This one is made of blue-and-white porcelain and features a design of boys in the Ming Dynasty style. It is in perfect condition.
