### Description

Vintage - Interior Decor Dimensions: 27 x 27 cm | Height: 92 cm Origin: Italy Period: 1970s Material: Thin rattan stems assembled in parallel lines (a technique known as "pencil reed"); an exotic basketry and cabinetmaking technique highly prized in high-end design of the 1970s. Its marquetry base, attributed to Vivai del Sud (though unsigned), along with its symmetrical design, make it a magnificent decorative piece. Whether used as a plant stand or a sculptural object, this honey-colored bamboo piece offers a soft, elegant texture and a patina characteristic of the Mid-Century style.
