Description

An elegant, fish-shaped Murano glass sculpture created by master glassmakers Roberto Donà and Stefano Toso. Both are leading figures in the Murano tradition of the second half of the 20th century, known for their mastery of hot-working techniques and their masterful use of color and material. Their works are distinguished by fluid lines, refined transparencies, and that uniquely Murano ability to transform glass into movement. This piece is striking for the harmony of its forms and the brilliance of the glass, crafted entirely using the solid-glass technique. The chromatic nuances and the dynamism of the tail highlight the artisanal skill and make the piece a perfect fusion of art and design, typical of signature Murano glass. Dimensions:- Height: 43.5 cm - Width: 34 cm - Depth: 10.5 cm
