

Pair Of Wood Paneling Sconces, 1780

850 EUR

Period : 18th century

Condition : Très bon état

Material : Bronze

Description

Description: Chiseled and gilded bronze. These beautiful Louis XVI wall sconces have a distinctive feature: they are designed to be mounted on a fixed structure (such as wood paneling, masonry, or a stereotome). So, these sconces are a rare accessory of decoration. As a result, they do not have a mounting plate. Each arm is encircled by an ear of wheat; the brackets are adorned with leaves and berries. The brackets are also adorned with berries and a frieze of acanthus leaves. Condition: Very good condition with beautiful gilding. Dimensions: Height: 44cm, Span: 33cm, Maximum projection at the counter-bowl: 11cm. Ref. 3742 / 8 kg / 850. If you would like a video of this item to better "understand" it, or detailed photos, please don't hesitate to ask us;
