Description

Vintage - Minimalist Design - Interior

DecorDimensions: 170 x 33 cm - Height: 160 cm

- 32 cm spacing between shelves.The famous

Enetri vintage shelf, designed by Niels

Gammelgaard for IKEA in the 1980s.In the

1980s, Niels Gammelgaard created an entire line

of metal-framed furniture for IKEA. These pieces

stand out for their minimalist design; their

ingenious and functional construction conveys a

sense of lightness while highlighting the

combination of materials.An iconic piece in the

IKEA collections, the Enetri shelf stands out for

the quality of its materials and

craftsmanship.Elegant and sleek, this bookcase

showcases whatever you choose to display on it,

whether it's a beautiful plant, a striking piece of

pottery, or your favorite books.This is a vintage

model from the 1990s, originally designed by the brilliant Danish designer Niels Gammelgaard in the 1980s. It consists of four thick shelves made of melamine-coated particleboard (in a very dark, wenge-style wood finish), supported by ladder-shaped, gray-lacquered steel uprights. Stable and sturdy, the piece is in good vintage condition
