Description

Pop Art Piece - Mickey and Minnie - Mixed media - Signed and dated 98
Decorative artwork in the Pop Art style depicting the famous characters Mickey and Minnie, rendered in a colorful and deliberately playful composition. The artist combines painting with relief work, particularly in the characters and the background, which evokes an assemblage of puzzle pieces. The piece plays on the contrasts between yellow, red, black, and shades of brown, with a thick, textured paint application that is particularly visible around the composition. The work bears a barely legible signature and the date 98, visible in the lower right corner. Presented in a large red lacquered wooden frame, which extends the highly graphic spirit of the composition. An original and decorative work in the Pop Art spirit
