Description

Christopher Guy: A monumental pair of carved mahogany orangery planters, numbered. An exceptional pair of large planters--orangery planters--from Christopher Guy. These masterpieces bear their original production numbers, attesting to their authenticity and the artistic cabinetmaking work carried out in the designer's Javanese workshops. Hand-carved from top-quality solid light mahogany, they display a neoclassical design of great finesse: central rosettes in high relief, foliage cartouches, ovate friezes, and lion's-paw feet. Intended for use in a prestigious lobby, a hotel orangery, or a high-end estate, these two modular structures form a spectacular ensemble with complementary geometries: 1 corner planter in a wedge shape 2 curved planters (concave panoramic shape)
