Description

ATO Art Deco Electric Table Clock - Léon Hatot, Paris
Elegant ATO electric table clock, designed by Léon Hatot, a renowned Parisian manufacturer specializing in electric clocks and 20th-century timepiece designs. This model features a beautiful Art Deco design, combining a chrome-plated metal frame with a large square dial protected by a glass panel. The sides are accented by two elegant, arched chrome supports, giving the clock a particularly architectural and modern silhouette. The original movement is present and in working order. It is signed and bears the inscriptions: "Établissements Léon Hatot - Fabricants - Paris - Made in France," along with the number 70646. On the back, the mechanism also retains its ATO instruction plate, illustrating the clock's system and adjustments. A
