Height : 74

Depth : 80

Description

A vintage modernist three-seater sofa, designed by André Vandenbeuck and manufactured by Strässle International. The frame is made of die-cast aluminum with partially painted finishes. The seat is upholstered in the original fabric from that era, featuring a well-preserved gray-and-black weave typical of 1960s-1970s design. Its understated, modern lines fit perfectly into a contemporary setting, while its artisanal craftsmanship ensures its durability. Ideal for enhancing living spaces with a touch of authentic vintage design. MOSEDI0323657
