

Cast-iron Boot Scraper With Swan Necks, Circa 1830

250 EUR

Period : 19th century

Condition : Bon état

Material : Cast iron

Description

Antique cast-iron boot scraper (also known as a shoe scraper or foot scraper), dating from the 19th century (the reign of Charles X / Louis-Philippe, circa 1830). Located at the entrance to the house, it is used to remove mud from the soles of shoes, which collects in the raised-rimmed basin. This is the model featuring swan-neck supports for the foot scraper; the basin is edged with a godron frieze; Cast iron with its original green paint (worn) in good condition, with no chips or cracks Dimensions: 28 x 23 x 18 cm
