### Description

Living room coffee table made from an antique 19th-century farmhouse table or workbench, crafted from solid cherry wood. It features a beautiful tabletop made of wide cherry wood planks, retaining a warm, antique patina and numerous signs of wear that give it its distinctive character. The apron opens at the front with a central drawer fitted with a turned wooden knob. Straight legs, likely shortened in the past to adapt the table for use as a coffee table. Traditional construction with visible antique wood on the underside. A sturdy piece in good condition, with marks, small blemishes, and irregularities consistent with its age and use. Period: 19th century, later converted into a coffee table. Material: solid cherry wood. Dimensions: Height: 48 cm Length: 119 cm Depth: 57 cm Shipping
