The brand is notably linked to the watchmaking centers of Villers-le-Lac and Morteau, in the Haut-Doubs, a historic region of the French watchmaking industry. Établissements Aris also maintained a commercial presence in Paris, while continuing its operations in Morteau throughout the mid-20th century. Dimensions - Dimensions Case 24 x 40 mm excluding the crown Thickness 8 mm Width between lugs 17 mm Strap length 19 cm

Movement - mechanical Caliber similar to the ETA 735, but note that the movement features an engraving of a horseshoe with 8 holes. Hand-wound movement, in good condition and fully functional. This watch is in working order; it has been serviced by a professional watchmaker. The movement is well-adjusted.

Accuracy The watch has been tested and is accurate to within a few minutes over the course of a day. Please note that with vintage watches, buyers should expect to adjust the time (if it runs fast or slow)--a procedure that must be performed exclusively by a professional at the buyer's expense. Indeed, during shipping (even though the package will be fully protected, this simple, standard adjustment may be necessary, even though the watch has already been serviced and is being sold in serviced condition).
