### Description

Percussion pistol with a box-type frame, circa 1840, 19th century. Brass metal parts, barrels with molded flanks and a rim at the muzzle, in the style of artillery pieces. Brass receiver and breech block chiseled with a small geometric design. Thunderbolt hallmark on the left side reading "ELG" and number 2 under the barrel. Trigger under the steel trigger guard with a small decorative motif. Chiseled and embossed steel hammer. Teardrop-shaped walnut stock, finely checkered, with a lozenge-shaped thumb rest made of nickel silver. Action in good working order, with two distinct cocking notches and no play. Length: 19 cm. Barrel length: 8 cm. Caliber: 12 mm. Weight: 265 grs. In good condition and well-preserved, with its original finish and patina (see photos). Free shipping within
