

## Antique Graphometer With Compass Or Surveying Instrument - 19th Century

380 EUR

Period : 19th century

Condition : Etat d'usage

Material : Brass

Width : 25 cm

Height : 13,4 cm

### Description

Antique brass graphometer or surveying instrument, equipped with a central compass and a graduated semicircle. A beautiful antique scientific instrument designed for geometry, surveying, and topographic mapping. The semicircle features fine engraved graduations, and the instrument is equipped with two alidade sights with folding vials. Central compass with a compass rose and needle. An engraved signature is present on the lower part: "... et Hurland à Paris," to be deciphered precisely, visible in the photographs. Beautiful antique brass construction with steel components. Antique condition with patina, signs of use, small scratches, marks, and oxidation consistent with the instrument's age. Sold as-is; functionality and measurement accuracy not verified. Dimensions: L 25 cm H 13.4 cm MX302
